## PARITY Success Bulletin

### Final PARITY Recruitment

There are now less than 10 participants to enroll to reach the PARITY targeted sample size! Once the 595<sup>th</sup> PARITY participant has been enrolled, access to the randomization system will be removed. An email will be sent out to inform you of this change. Please contact the methods center if you have a participant to enroll in the PARITY trial during this time and temporary access will be provided to randomize one of the 5 remaining participants.

Please **continue to recruit and randomize patients** as normal until the Methods Center notifies you of this change.
